

Invitation to Help Collect and Share Quotes and Other Resources on Successful Living Skills

The **Collaborative Infopreneurship Network Benefit Corporation** is preparing to help launch the affiliated non-profit **University for Successful Living** by publishing the initial 14 of 101 pending titles. Each of the 14 stand-alone titles for **Solving Life's Ultimate Success Puzzles** is filled with fun interactive quizzes, self-discovery exercises, implementation tools and featured resources and quotes. They are designed to help readers realize more of their potential, fulfill their life purpose and mission and discover how to create their **Ultimate Destiny** (whatever that means to each one.)

We envision an international network of thousands of **Centers for Successful Living** and **Empowerment Resource Centers** staffed with certified **Successful Living Coaches**, **Empowerment Consultants** and **Empower Mentors**. The University and Centers will help **Expand the Circle of Success** by providing expanded distribution channels for the world's best resources for personal, organizational and community empowerment. As a result, people may be better able to develop a larger vision of themselves, learn how to set and achieve goals, increase their performance levels, manifest stewardship over increased financial resources, and live happier more productive lives.

There is the potential for new businesses and jobs to be created. Families, neighborhoods and communities could be empowered and strengthened. Successive generations could realize more of their potential and America could fulfill its ultimate destiny as an example of a fully actualized society. Our ultimate goal is to help people world-wide **A.R.K.** -- **A**waken to their true spiritual identity, **R**ealize more of their potential, and **K**now how to create their ultimate destiny. We plan to serve as the catalyst for the establishment of thousands of locally initiated facilities all over the world and the certification of thousands of facilitators. This will be accomplished primarily through strategic alliances with some of the world's leading resources for success and empowerment, including world-class success coaches and trainers, particularly our **Ultimate Destiny Hall of Fame Award** recipients.

On the next page are a few areas we have identified as “Successful Living Skills” that we share in our publications and programs. Please add any other skills you consider important in achieving life success and share your favorite quotes AND any recommended resources on any or all of these that we could include as Featured Resources.

Thank you for helping us gather and share positive uplifting information!
